Zimbra: Your Flexible Alternative to Microsoft Exchange

Support for Exchange Server 2016 and 2019 ends October 14, 2025. What's next?

The Challenges and Risks of Staying on Exchange

Security patches: No protection against new vulnerabilities and prime target for cyberattacks.

Bug fixes and updates: Unresolved bugs could disrupt operations and raise maintenance costs, leading to downtime and reduced productivity.

Compliance coverage: Lack of updates creates regulatory risks, especially for industries like finance, healthcare, and government.

Migrate in Your Own Timeline

Now is the perfect time to explore options and set a migration timeline that fits your strategy. Evaluate solutions and protect priorities. Use upcoming changes as an opportunity to plan ahead, ensuring a smooth move that aligns with your goals and schedule.

Switching to a supported platform like Zimbra mitigates these risks while preserving the functionality users rely on.

Why Zimbra?

Global Trust

- 20+ years in enterprise collaboration
- 200 million+ mailboxes deployed across 127 countries
- Trusted by over 1,000 highly regulated organizations & government entities

Data Sovereignty & Deployment Flexibility

- On-premises, private cloud, hybrid and SaaS options
- Meets strict regional and industry-specific regulations
- Full ownership and control of your data and infrastructure

Transparent & Flexible Options Available

- Scale up on demand as business needs evolve
- Transparent modular licensing - only pay for features you use today

Seamless Integration with Outlook

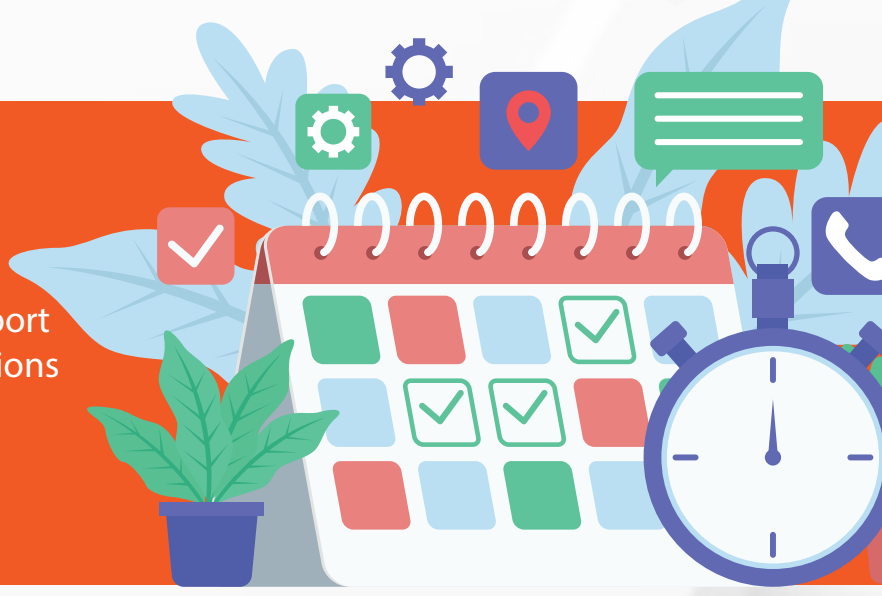

- Swap out Exchange without losing legacy data or end-user productivity
- Zero end-user retraining - preserve familiar workflows for mail, calendar, contacts and mobile
- Comprehensive support for Outlook across devices

Extensible, Open-Standards Platform

- Rich API and Zimlet framework for custom integrations
- Easily connect third-party apps and home-grown systems
- Future-proof your investment with an open-core architecture

Act Now.

The clock is ticking. With Exchange support ending on **October 14, 2025**, organizations must act quickly to avoid risks.

Success Stories

Zimbra's track record speaks for itself. Here are a few examples of organizations that successfully transitioned to Zimbra:

Global Financial Institution:

Migrated 50,000 mailboxes to Zimbra's on-premises solution, ensuring compliance with strict data sovereignty laws while maintaining Outlook compatibility.

Government Agency:

Switched to Zimbra, Costs Cut in Half: Messaging and maintenance costs reduced by 50% compared to the previous proprietary Microsoft environment.

Educational Institution:

Migrated 2,000 mailboxes in 5 months, ensuring compliance with strict data sovereignty laws while maintaining Outlook compatibility.

These organizations trusted Zimbra's flexibility, security, and proven performance—join them today. Find out more and discover a better way to communicate and collaborate:
